

## **Treasure Hunt Room (Plants): Looking for “treasures of information” using the Worldwide Web**

1. A moderator should be chosen who at least has a working microphone. If mic doesn't work right away, select a moderator who has a working mic.
2. Moderators can use a webcam as well.
3. Please only turn on webcams when students have something specific to say or show related to the topic.
4. Select your favorite plant species either from today's topic or any topic of interest.
5. Look at the class website of resources to help with looking for a species.
6. Look for the following photos around the web for your species.
  - a) Male and female plants (if different from each other)
  - b) Young plant
  - c) Old plant
  - d) Habitat
  - e) Flowers
  - f) Fruit
  - g) Seeds
  - h) Leaves
  - i) Bark (if apply)
  - j) Map of its Geographic Range
7. Find an interesting website about your species.
8. Search for a fun craft or activity about your plant or make one up yourself.
9. Look for a video about your plant.
10. Post your “treasures” to the class Treasure Hunt Room Forum on CurrClick Live to share with your classmates.
